

How to Purchase 2Bee

Install MetaMask for Google Chrome

Why – MetaMask is a crypto wallet to store your tokens.

- Open a Google Chrome browser
- Google [MetaMask](#) and install the extension
- Import or create a new wallet
- Create a password
- Save secret backup phrase in a safe place
- Setup Metamask to work with the Binance Smart Chain (BSC):
 - Go to “Settings” Page
 - Add a new Network
 - Mainnet
 - **RPC URLs**
 - ChainID: 0x38, 56 in decimal (if 56 doesn’t work, try 0x38)
 - Symbol: BNB
 - Block Explorer: <https://bscscan.com>

Purchase BNBs

Why? Purchasing Binance Coin (BNB) will allow you to purchase 2BEE. We are using USD to purchase BNB to purchase 2Bee.

1. Go to [Binance.com](https://binance.com) and open an account. You will have to do the standard verification process to deposit.
2. Add a debit card to use for deposit; this is the fastest way as any funds you buy using a debit card are available immediately for withdrawal to another wallet (MetaMask). You can add a bank account, but it takes several days for clearance to withdraw any crypto you buy.
3. Buy the amount of BNB you want to buy 2Bee with using your debit card.

Send Your BNB to Your MetaMask (Please, check BSC Network instead Ethereum Network)

1. Copy your MetaMask wallet address (begins with 0x), go back to Binance and click “Send/Receive”.
2. Choose the amount of BNB you wish to send and paste your MetaMask wallet address into the “To” field. Press continue and verify to complete.
3. Note, that a small fee will be deducted from the overall amount sent, Binance lets you know the amount based on BNB network activity.
4. Wait for your BNB to arrive to your MetaMask!

Connect Wallet to PancakeSwap

Why? This will allow you to swap your BNB for 2Bee

1. Go to <https://pancakeswap.finance/>

How to Purchase 2Bee

2. Click "Use PancakeSwap"
3. Click "Connect to a wallet"
4. Click "Connect with MetaMask"
5. Follow prompts to connect wallet
6. Click "Select a token"
7. Search for "2Bee" (Make sure you see the 2Bee logo) or paste the 2Bee SmartContract address:
0x84e315b57c2d4557dac519762b787a4658fe705d
8. Click import 2 times

How to Purchase 2Bee

Purchase 2Bee

1. Enter amount of BNB to spend on 2Bee in PancakeSwap
2. Make sure to leave 5% of BNB to pay for the transaction/swap.
Every transaction/swap requires a fee in BNB.
3. Set slippage to 5%
Why? The price of a token is constantly moving up and down. Slippage is the range the token can move up or down from the current price with the transaction still going through.
4. Click on “No liquidity! Click to trade with V2”
5. Click “Swap”
6. Click “Confirm Swap”
7. Confirm the transaction within MetaMask when the pop-up occurs

Confirm through MetaMask

Why? To ensure the transaction went through and you can see your tokens in MetaMask.

1. On the PancakeSwap page, click “Add 2Bee to MetaMask”

Install Zerion

Why? To see the price of 2Bee and your tokens at the same time.

1. Open [Zerion](#)
2. Click “Connect wallet”
3. Click “Log In with MetaMask”
4. A new popup from MetaMask will open
5. Click “Next”
6. Click “Connect”
7. Review your 2Bee and BNB

Accessing MetaMask

Click on extensions at the top right corner of a Google Chrome browser  or in
