How to Purchase 2Bee

Download the Trust wallet app for ios or Android

Why – Trust wallet is a secure crypto wallet to store your tokens. It is not an exchange.

1. Install the Trust Wallet app on your device (not available in desktop format).
2. Import or create a new wallet
3. Create a password
4. Save secret backup/seed phrase in a safe place (handwritten note recommended).
5. Add custom token - copy and paste 2Bee World contract address into search bar and follow prompts.

Purchase BNB

Why? Purchasing Binance Coin (BNB) will allow you to purchase 2Bee. We are just using USD topurchase BNB to purchase 2Bee.

1. Go to **Wyre** or your preferred exchange platform to convert your FIAT currency into BNB.
2. Enter amount of USD you wish to spend
3. Make sure the transfer is from USD to BNB
4. Authorize Wyre to access your account
5. Click Next
6. Enter payment information
7. Submit
8. Enter verification code
9. Enter bank verification code (log into your bank account to get this code)
10. Once you have purchased BNB, you need to send it to your Trust Wallet BNB wallet address (copy address from 'receive' tab in BNB wallet).

Connect Wallet to PancakeSwap

Why? This will allow you to swap your BNB for 2Bee
Note: Android users should see the DApps browser icon within the app however iOS users will need togo to PancakeSwap on their device's browser.

1. Go to **https://pancakeswap.finance/**
2. Click "Use PancakeSwap"
3. Click "Connect to a wallet"
4. Click "Trust Wallet"
5. Follow prompts to connect wallet
6. Click "Select a token"

How to Purchase 2Bee

7. Search for "2Bee" (Make sure you see the 2Bee logo) or paste official contract address: 0x84e315b57c2d4557dac519762b787a4658fe705d

8. Click import, tick box and allow import

How to Purchase 2Bee

Purchase 2Bee

1. Enter amount of BNB to spend on 2Bee in PancakeSwap (don't spend max).
2. Make sure to leave 5% of BNB to pay for the transaction/swap.
   Every transaction/swap requires a fee in BNB.
3. Set slippage to 5%
   Why? The price of a token in constantly moving up and down. Slippage is the range the token can move up or down from the current price with the transaction still going through.
4. Click on "No liquidity! Click to trade with V2"
5. Click "Swap"
6. Click "Confirm Swap"
7. Confirm the transaction within Trust wallet app when the pop-up occurs
8. Refresh your trust wallet and your tokens will appear in your wallet automatically after a short time.
